

Think. Talk. Act.

Join the Holcim-HIA onsite safety conversation

(refer to for discussion tips)

Think...

- Am I fully prepared to **work safely** on this site?
- Is the **site safe** for all parties?
- Is our equipment **properly maintained and safe**?
- Have I taken all the **necessary steps** to **control risks**?
- Have the **site conditions changed** due to weather and other activities?

Talk...

- To **representatives of all parties** working on site about safety
- About any **potential hazards** or **risks** you have seen
- Over potential **solutions to minimize** or **eliminate risk**
- Through anything that you think **doesn't look** or **feel right**

Act...

- If it doesn't feel safe **STOP; Think, Talk** before you **Act**
- Make **safe choices** and develop a **safe site program**

Evaluate the site

Watch out

Correct PPE

Look around

Mind your body
